

# AVIATION FLOOR COATINGS

Aircraft hangars are busy environments that are subject to several unique challenges. Flooring systems within these facilities must withstand daily exposure to chemical attack, constant traffic, and heavy impact.

## LONG-TERM PERFORMANCE = SMOOTH OPERATIONS

Resinwerks offers a range of hangar flooring systems that serve both light-duty aircraft hangars as well as large commercial jet facilities. Resinwerks™ seamless performance floor coating systems offer protection from a litany of caustic chemicals including oils, harsh solvents, and Skydrol®. Full impermeability with these and other aviation fluids help maintenance professionals ensure a clean environment that will optimize daily operations.

## COLOR-STABLE, HIGH-END FINISHES

Resistant to hot-tire staining, hangar flooring systems are available in a variety of highly reflective finishes with custom colors available. In addition, Resinwerks offers integral safety-stripes that are enclosed within the flooring system to provide crisp, clean lines that will last the life of the floor. UV-resistant performance urethane topcoats enhance visibility and color integrity for a bright environment. The color-stable finishes from Resinwerks will look great for the life of the floor while helping employees easily spot spills, tools, and hazards.

## SAFETY FOR TODAY'S HANGAR

With a focus on safety, our aircraft hangar floor coatings are designed to address slip and fall hazards in bustling hangar environments filled with personnel and aircraft. Resinwerks provides customizable slip-resistant finishes tailored to meet the diverse requirements of various aviation facilities. By incorporating surface traction at specified levels, we enhance workplace safety while maintaining a balance between texture for improved grip and ease of cleaning and maintenance.

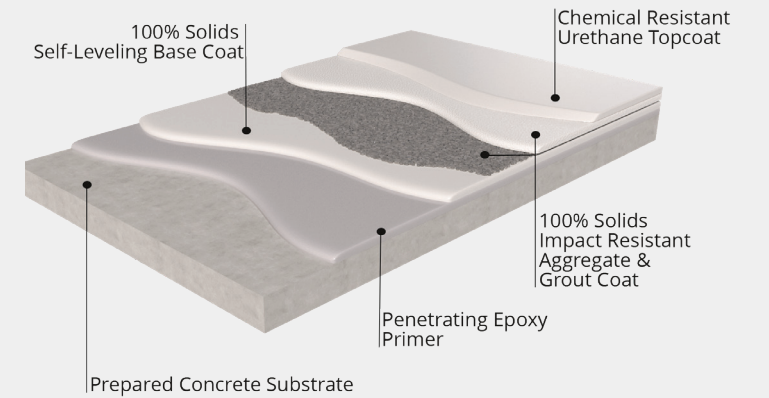

## ENGINEERED TO YOUR SPEC

Resinwerks hangar floor systems are engineered for the type of hangar as well as the size of aircraft. These systems will typically incorporate a 100%-solids self-leveling primer in conjunction with impact-resistant intermediate coats. Together, these products are professionally installed to provide the compressive strength necessary to withstand significant point loads and torque generated from heavier aircraft. Resinwerks hangar floors are finished with UV stable and chemical resistant urethane topcoats, these complete systems offer excellent long-term durability, chemical resistance and color retention.

## PROFESSIONAL INSTALLATION

Along with the products selected, the long-term performance of your hangar floor will greatly depend on the quality of your installation. Resinwerks is fortunate to be partnered with some of the very best professional resinous flooring contractors in the industry. Resinwerks authorized installers are established floor coating contractors with the manpower and craftsmanship to perform at the highest level. Please contact us today to locate an installer in your area or to discuss your project.

## **ABOUT US**

Resinwerks manufactures sustainable industrial coatings that offer superior performance, quality and value. Supported by a team of veteran resinous flooring professionals, we are committed to delivering the very best products to facility owners and our trusted contractor partners. Our products are manufactured domestically and conveniently shipped direct.

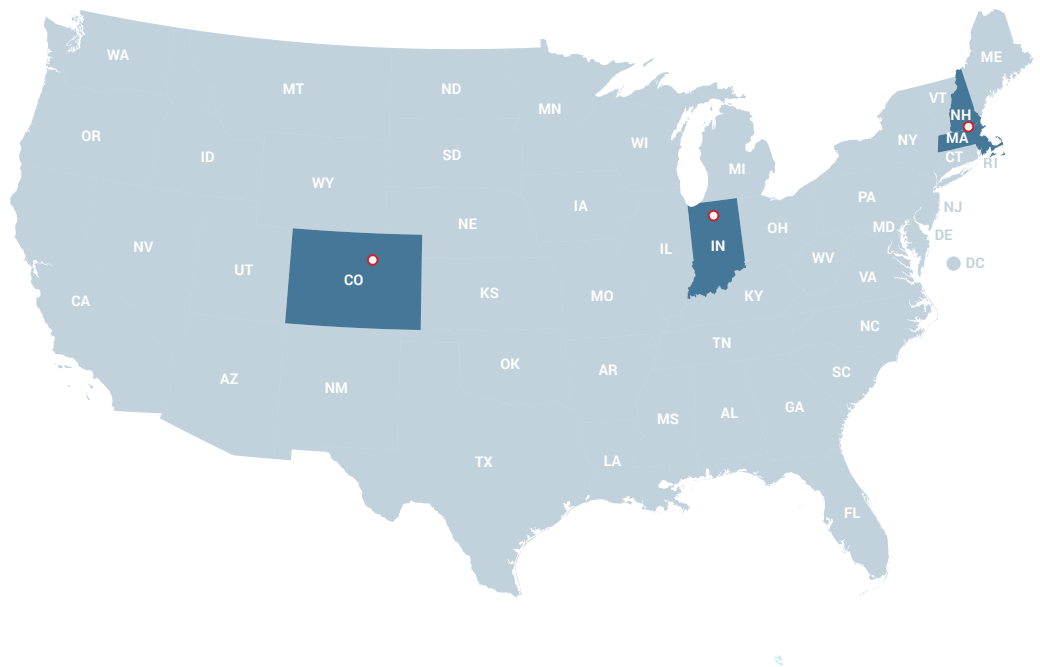

## **SUSTAINABLE PRODUCTS**

Our product line was designed from the ground up to focus on the latest in environmentally conscious resins and additives. In addition, we have largely substituted water for harsh solvents, making our products safer to use and better for our environment. For our clients this means less hazardous emissions and superior long-term performance.

## **PRODUCT & SPECIFICATION SUPPORT**

For assistance designing your next project, ordering samples, or securing an installation quote, please contact: [info@resinwerks.com](mailto:info@resinwerks.com) or 720-484-5160

Midwest factory as well as Western and Eastern US fulfillment centers for convenient 1-2 day fulfillment Nationwide.
