SCHOOL FLOOR COATING APPLICATIONS

Resinwerks specializes in durable, non-slip resinous flooring systems for educational settings. These floor coating applications are engineered to withstand the daily wear and tear without the need for waxing. An ideal choice for schools and universities, resinous flooring provides a long-lasting, safe alternative to tile, VCT and other traditional flooring products.

APPLICATIONS

- ◆ School Lobby Floors
- ◆ Hallways & Classroom Flooring
- ◆ Locker Rooms Floors & Walls
- ◆ Restroom Floors
- ◆ School Kitchen Flooring
- ◆ Cafeteria Floors
- ◆ Laboratory Flooring
- ◆ Custom Colors & Logo Floors

About Our Products

Resinwerks incorporates unique additive formulations and innovative chemistry to create seamless, grout-free floor coatings that are ideal for educational spaces. These coatings may be applied up vertical surfaces, providing for a seamless floor to wall transitions that look great and reduce maintenance.

Safe & Sanitary Flooring Systems

In addition to the seamless nature of our products, Resinwerks incorporates anti-microbial chemistry technology into mid and topcoats to help prevent the spread of bacteria and infection. These advanced silver-ion and other anti-microbial additives inhibit microbial growth and are tested to kill bugs such as salmonella, E coli and staphylococcus aureus. By uniting the anti-microbial capabilities with the benefits of seamless flooring, Resinwerks is able to provide one of the safest and most effective flooring solutions available for school bathrooms, locker rooms and hallways.

Rapid Installation with Green-Friendly Products

The installation of school flooring applications often occurs during holiday or semester breaks. Sometimes these projects may even take place over a weekend during the school year. Resinwerks has a full offering of rapid-cure polyaspartic coating systems that can be installed and returned to service in just one-day.

In addition, we carry of the industry's most environmentally friendly lines of high-performance floor coatings. Our low-VOC and VOC-Free materials emit minimal odor and are suitable for interior applications. All products are installed by our network of certified national installers. These professional applicators are among the very best in their respective geographic markets and will ensure a high-quality finish designed to last for years.

All Resinwerks products are LEED Eligible and 3rd party certified to be compliant with the California Department of Health Standard Method V1.2 for low emitting materials.

About Us

Resinwerks manufactures sustainable industrial coatings that offer superior performance, quality, and value. Supported by a team of veteran resinous flooring professionals, we are committed to delivering the very best products to facility owners and our trusted contractor partners. Our products are manufactured domestically in the USA and conveniently shipped direct to you.

Sustainable Products

Our product line was designed from the ground up to focus on the latest in environmentally conscious resins and additives. In addition, we have largely substituted water for harsh solvents, making our products safer to use and better for our environment. For our clients, this means less hazardous emissions and superior long-term performance.
